» All results being submitted for a certification period must have gone through internal and external quality assurance prior to submission.

» The accuracy of data is your responsibility.

» When deciding on your submission date, remember to factor in other important dates e.g. CAO offer rounds, conferral dates, and so on.

» For each certification period, all quality assured results must be submitted, with a completed declaration, by the relevant submission deadline.

» Please regularly check the Notice Board on QBS certification page for updates/information e.g. final date for the processing of invalid data prior to each certification period etc.
