

Policy on Quality Assurance Guidelines

Patrick Creed, School Director
Bridge Mills Galway Language Centre

1. Section 4.2

.....Qa guidelines cannot be adopted by providers as QA procedures.....

For Language providers there must be a common set of procedures that could be developed that would be common to many schools rather than having each provider trying to create their own procedures.....could a single organisation representing the interests of language schools develop one set of common procedures for language schools?

2section 4.3a

.....QA guidelines can be issued separately to address specific sectors...

Can we as Language providers collectively inform these guidelines rather than having them imposed upon us?

3. Section 4.4 1

.....All of a providers staff should be involved in quality assurance.....
How do you suggest this happens?
