Dear colleagues,

Please find attached feedback on White Paper Blended Learning from IT Sligo.

This looks like a useful guidance document.	All
The last sentence under 1.1 states: "Massive Open Online Courses (MOOCs) and other less formal kinds of blended learning " - this implies that MOOCs are primarily blended courses whereas they are, with only a few exceptions, fully online courses.	Section 1.1 p. 4
Comprehensive document. Why is online separate? Seems to imply online learning is a subset of blended learning. Online excluded.	Pages 4 & 5
