NFQ LEVEL SUMMARY

Learning outcomes at Level 8 relate to an understanding of the theory, concepts and methods pertaining to a field (or fields) of learning, with innovation as a key feature. The outcomes include an awareness of the boundaries of the learning in the field and the preparation required to push back those boundaries through further learning. The outcomes relate to adaptability, flexibility, ability to cope with change and ability to exercise initiative and solve problems within their field of study. In a number of applied fields the outcomes are those linked with the independent, knowledge-based professional. In other fields the outcomes are linked with those of a generalist and would normally be appropriate to management positions.

The recognition advice provided above is based on current understandings of the comparability of qualifications on the basis that qualifications are awarded by nationally recognised awarding bodies in their country of origin. The advice given may need to be re-examined in the future on the basis of changes and developments in national and international education and training systems and our knowledge thereof. We welcome feedback on the information provided; feedback should be submitted through the QHelp portal at www.QQI.ie
