

QQI and Enterprise Engagement: Research project

Strengthening Strategic Partnerships

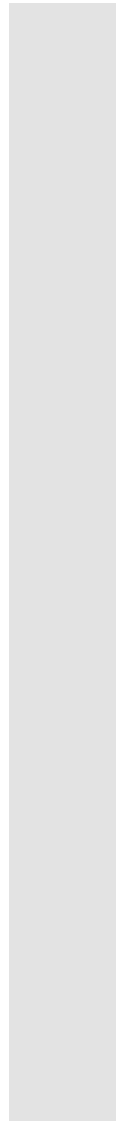

19 October 2022

O'BRIEN / GOVERNANCE DESIGN

QQI's interest in this
area (in general) ...

Role in ensuring that relevant programmes undertaken by learners and leading to qualifications in the NFO are informed by the needs of the labour market.

QQI's interest
in this area
(more
specifically) ...

- Role re the NFO
- When awarding body
 - Sets standards
 - Validates programmes
- As a quality assurance body
 - Provides quality assurance oversight and guidance
- At centre of nexus

The project

Stage 1: Developing a scope document-
what are the questions?

Stage 2: Research project

Research on what?

The exchange of information between awarding bodies and providers and labour market actors that informs the design and review of programmes

The effectiveness of those methods and whether gaps have been identified

The potential roles of QQI in highlighting and helping to identify opportunities to address these gaps

Also collecting
information on
...

the involvement of enterprise in provision (e.g., co-provision models)

models of good practice that could be researched in further detail

researchers working in this area currently

Consultation for scope has begun

Outcome of consultation / scope document (by end of year)

Research project next year
