Component Specification NFQ Level 5

Early Childhood Education and Play 5N1773

1. Component Details

Title
Early Childhood Education and Play

Teideal as Gaeilge
Oideachas agus Súgradh na Luath-Óige

Award Type
Minor

Code
5N1773

Level
5

Credit Value
15

Purpose
The purpose of this award is to equip the learner with the knowledge, skill and competence to ensure that each child’s learning, development and well-being is facilitated through the provision of opportunities, experiences, activities, interaction, materials and equipment, having regard to the age and stage of development of the child and the child’s cultural context.

Learning Outcomes
Learners will be able to:

1. Outline the types, stages, patterns and purposes of children’s play

2. Describe a range of theories of play in the context of children’s education to include Psychoanalytic theories (Freud, Winnicott) and Constructivist theories (Piaget, Vygotsky)

3. Evaluate the role of the adult in children’s play

4. Explore a child lead approach to meeting the play and educational requirements of children
5  Describe different approaches to curriculum development and implementation in the ECCE setting

6  Assess the value of equipment, materials, play spaces, both indoors and outdoor in the ECCE setting

7  Use a range of reading and storytelling techniques appropriate to different stages of children’s development and cultural background

8  Select relevant play activities and materials appropriate to children’s interest and stage of development and cultural background

9  Implement appropriate curricula which promotes learning and the holistic development of the child

10 Reflect on own role and responsibilities when supporting children in their play.

Assessment

General Information

All assessment should be planned in accordance with the programme assessment strategy developed as part of the programme submission for validation. See Policies and Criteria for Validation of Programmes. Assessment should be undertaken consistently and reflect current assessment guidelines. See www.qqi.ie.

All FET assessment is criterion referenced. Successful achievement of the award is based on learners attaining the required standards of knowledge, skill or competence consistent with the minimum intended programme learning outcomes.

The techniques set out below are considered the optimum approach to assessment for this component. In exceptional circumstances providers may identify alternative assessment techniques through the provider’s application for programme validation which are reliable and valid but which are more appropriate to their context.

Assessment of a number of components may be integrated across programmes for delivery, provided that the learning outcomes of each minor award are assessed.

Group or team work may form part of the assessment, provided each learner’s achievement is separately assessed.
All providers are required to submit an assessment plan as part of their application for programme validation. Assessment Plans will include information relating to scheduling and integration of assessment. See current FET validation guidelines at www.qqi.ie.

Assessment Techniques

In order to demonstrate that they have reached the standards of knowledge, skill and competence identified in all the learning outcomes, learners are required to complete the assessment(s) below.

The assessor is responsible for devising assessment instruments (e.g. project and assignment briefs, examination papers), assessment criteria and mark sheets, consistent with the techniques identified below and QQI’s assessment requirements.

Programme validation will require providers to map each learning outcome to its associated assessment technique. All learning outcomes must be assessed and achieved in accordance with the minimum intended module learning outcomes set out in the validated programme.

Description

Assignment

An assignment is an exercise carried out in response to a brief with specific guidelines as to what should be included. An assignment is usually of short duration and may be carried out over a specified period of time.

Assignment

An assignment is an exercise carried out in response to a brief with specific guidelines as to what should be included. An assignment is usually of short duration and may be carried out over a specified period of time.

Skills Demonstration
A skills demonstration is used to assess a wide range of practical based learning outcomes including practical skills and knowledge. A skills demonstration will require the learner to complete a task or series of tasks that demonstrate a range of skills.

**Recognition of Prior Learning (RPL)**

To support the development and implementation of RPL with regard to access, granting credit/exemptions and achievement of awards/parts of awards, providers should refer to QQI's *Statutory Guidelines for Quality Assurance*, the *Policies and Criteria for Validation of Programmes* and the *Principles and Operational Guidelines for the Recognition of Prior Learning in Further and Higher Education and Training* available at [www.qqi.ie](http://www.qqi.ie)

**Grading**

- **Pass** 50% - 64%
- **Merit** 65% - 79%
- **Distinction** 80% - 100%

**Specific Validation Requirements**

There are no specific validation requirements for this award.

**Supporting Documentation**

**Access**

To access programmes leading to this award the learner should have reached the standards of knowledge, skill and competence associated with the preceding level of the National Framework of Qualifications. This may have been achieved through a formal qualification or through relevant life and work experience.

**Transfer**

Successful completion of this component award enables the learner to transfer to programmes leading to other certificates where this component is a mandatory or an elective requirement.

---

2. **FET Award Standards**

QQI award standards are determined within the National Framework of Qualifications (NFQ), [http://www.nfq-qqi.com](http://www.nfq-qqi.com). QQI determines standards for the education and training awards that it makes itself and that are made by providers to whom it has delegated authority to make an award. Providers offering programmes leading to QQI awards **must** have their programme(s) validated in accordance with current validation policy (see [www.qqi.ie](http://www.qqi.ie)).

Award standards are designed to be consistent with the NFQ's award classes i.e. major, special purpose, supplemental and minor awards. They are expressed in terms of **learning outcomes**
i.e. concise statements of what the learner is expected to know or be able to do in order to achieve a particular award. Learning outcomes for FET awards are contained within the associated specifications:

<table>
<thead>
<tr>
<th>AWARD CLASS</th>
<th>STANDARDS</th>
<th>AWARDS</th>
</tr>
</thead>
<tbody>
<tr>
<td>Major Award</td>
<td>Certificate Specification</td>
<td>Certificate (Levels 1 to 5)</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Advanced Certificate (Level 6)</td>
</tr>
<tr>
<td>Supplemental Award</td>
<td>Supplemental Specification</td>
<td>Supplemental Certificate (Level 3 to 6)</td>
</tr>
<tr>
<td>Special Purpose</td>
<td>Specific Purpose Specification</td>
<td>Specific Purpose Certificate (Levels 3 to 6)</td>
</tr>
<tr>
<td>Minor Award</td>
<td>Component Specification</td>
<td>Component Certificate (Levels 1 to 6)</td>
</tr>
</tbody>
</table>

Award standards are thresholds, they describe standards of knowledge, skill or competence to be acquired, and where appropriate, demonstrated, by a learner before an award may be made.

Award standards will be reviewed from time to time as necessary. Minor changes may be made by the QQI executive outside the review cycle where necessary. Changes to standards are published on QQI’s website. Providers with validated programmes and providers with delegated authority to make awards are responsible for monitoring relevant standards and making necessary responses to changes.

3. FET Credit

Every FET certificate and component specification includes an FET credit value (Table 1). FET credit is quantified in multiples of 5 FET credits (up to 50 hours of learner effort). Learner effort is based on the time taken by typical learners at the level of the award to achieve the learning outcomes for the award. It includes all learning time involved including: guided learning hours, self-directed learning and assessment.

Guide to Level

Learning outcomes at this level include a broad range of skills that require some theoretical understanding. The outcomes may relate to engaging in a specific activity, with the capacity to
use the instruments and techniques relating to an occupation. They are associated with work being undertaken independently, subject to general direction.

<table>
<thead>
<tr>
<th>Strand</th>
<th>Sub-strand</th>
<th>Nature of learning</th>
</tr>
</thead>
<tbody>
<tr>
<td>Knowledge</td>
<td>Breadth</td>
<td>Broad range of knowledge</td>
</tr>
<tr>
<td></td>
<td>Kind</td>
<td>Some theoretical concepts and abstract thinking, with significant depth in some areas.</td>
